

LONGHORNS® TRADITION OF EXCELLENCE

We are pleased to invite you to the Longhorns® Sports Medicine Camp for athletic training students. Few experiences better prepare you to pursue athletic training at your high school, at the collegiate level, or as a career. As a participant in our camp, you receive a comprehensive overview of all aspects of athletic training, from anatomy to athletic training room management. You also receive one-on-one instruction in taping techniques, injury evaluation, rehabilitation and emergency procedures.

Our camp graduates are able to take the skills and lessons learned during the workshop to their high school setting and practice them in their own athletic training rooms.

During the camp, you have the chance to experience the atmosphere at The University of Texas, one of the nation's premiere institutions of higher learning as well as a leader in the fields of athletic training and sports medicine.

Our participants enjoy meeting other students from around the country who share an interest in athletic training and the opportunity to work with some of the most respected professionals in sports medicine.

We are looking forward to having you be a part of our Sports Medicine Camp. See you in June!

Longhorns® Sports Medicine Camp

TEXAS LONGHORNS®
SPORTS MEDICINE
CAMP 2022

The University of Texas
Austin, Texas
June 24 - 27, 2022

THE UNIVERSITY OF TEXAS

LONGHORNS SPORTS MEDICINE CAMP

P. O. Box 7399

Austin, TX 78713-7399

APPLICATION/PAYMENT DEADLINE: June 1, 2022

ATTENTION: ATHLETIC TRAINER

Nike is the "Official Footwear and Apparel Supplier of Texas Athletics"

The Longhorns® Sports Medicine Camp is designed for high school students who are interested in attaining basic Athletic Training knowledge and skills. The camp consists of lecture and laboratory sessions covering a variety of Athletic Training topics. For the student with previous camp or clinical experience, selected advanced lectures and labs are conducted. Participants also have the opportunity to meet with staff members who are instrumental in the selection of future UT athletic training students.

Students Will Learn

- Anatomy pertinent to athletic injuries
- Injury evaluation techniques
- Principles of injury prevention
- Principles of injury rehabilitation
- Emergency procedures
- Taping and wrapping techniques

Questions?

sportsmedcamp@athletics.utexas.edu

"Per NCAA rules, this camp is open to any and all entrants and enrollment is only limited based on age, grade level, gender, or number restrictions as specified by each camp. NCAA guidelines prohibit payment of camp expenses by a representative of UT Athletics interest. NCAA rules also prohibit free or reduced admission for prospective student-athletes (9th grade and above)."
